Implementation of vaccination policies

Hamilton Niagara Haldimand Brant and Burlington (HNHBB) region hospitals support the Province's directive to implement COVID-19 vaccination policies no later than September 7, in response to the pandemic. At a minimum, this approach will require staff, physicians, contractors, learners/students, and volunteers to provide proof of full vaccination against COVID-19 or written proof of a medical reason for not being fully vaccinated or to participate in mandatory education about the benefits of COVID-19 vaccination. Hospitals will also be required to implement regular and mandatory testing of individuals that are not fully vaccinated.
