SHORT-TERM RENTAL OPERATOR INFORMATION

BUILDING AND FIRE SAFETY

As the operator of a short-term rental, it is imperative that you consider the safety of all guests by ensuring that appropriate safety measures have been established. These include:

- Providing guests with the contact information of your designated 24/7 local contact in the event of an emergency
- Posting a fire and safety evacuation plan at each entrance and exit, and in each approved bedroom of the short-term rental.
- The home must be equipped with working smoke alarms on each level of the home as well as outside of all sleeping areas.
- Portable fire extinguishers no smaller than size 2A10BC, mounted in an easily accessible location, on each level of the home.
- Carbon monoxide alarms are required outside of each sleeping area, if the home contains a fuel-fired appliance, an attached garage or if there is a wood-burning stove or fireplace.
- Maintaining all smoke alarms, carbon monoxide alarms and portable fire extinguishers in working order. Performing the required inspections and tests on the equipment and retaining related records.
- Ensuring that all bedroom windows are free of obstruction and that there is an escape route available in each bedroom

For further information, please consult The Ontario Fire Code O.Reg 213/07 as amended.

RECREATIONAL OPEN-AIR BURNING As the operator of a short-term rental, you must ensure that your guests conduct recreational open air burnings in a safe and considerate manner. This can be encouraged by providing guests with an existing open burning device or fire burn area to which open air burning can be confined. The dimensions of this device or area must be no larger than 2 feet (61 cm.) by 2 feet (61 cm.) by 2 feet (61 cm.) or 8 cubic feet (0.26 cubic metres) in size. Open burning devices shall be designed of a non-combustible material, adhere to the size description, and shall be installed in accordance with the Manufacturer's recommendation. To protect adjacent properties from fire hazards, open burning devices or fire burn areas should be installed in a location that provides for a minimum distance of 13 feet (4 m.) in all directions from adjacent properties, and a minimum of 10 feet (3 m.) from permanent combustible structures or objects.

Providing guests with appropriate burn materials to carry out recreational open air burns will help to increase burn safety. Appropriate burn materials include commercially produced charcoal, briquettes or clean, dry seasoned wood, but do not include painted wood, pressure treated wood or creosote treated wood. The dimensions of the wood to be burned must not exceed the dimensions of the open burning device or fire burn area, such that the wood is completely confined to described extents. Ensuring that an extinguishing agent of sufficient size and capability is made readily accessible to guests will also promote safe burning practices. Short-term rental guests should be made aware of relevant recreational open air burning regulations and the specific role that they play when conducting recreational open air burns. This role includes:

- Attending, controlling, and supervising the fire at all times, and ensuring that the fire is extinguished before vacating and;
- Conducting burns in permissive weather, where wind speeds do not exceed 20 km per hour, it is not rainy or foggy, and a smog alert has not be declared.

Should the occupant of the short-term rental fail to extinguish a recreational open air burning or a prohibited open air burning when ordered to do so by the Fire Chief, the Fire Chief may take action to have the fire extinguished. As a result, the owner of the short-term rental will be responsible for

any and all costs incurred by the Town of Fort Erie Fire Department in its efforts to extinguish the fire. Please reference Town By-Law No. 167-03.

As the operator of a short-term rental, it is imperative that you consider the safety of all guests by ensuring that appropriate safety measures have been established. These include:

PARKING It is recommended that operators of short-term rentals inform guests of permitted vehicle parking spaces. Vehicle parking shall be restricted to the property, and where permitted, on-street in spaces located adjacent to the property. Please reference Town By-Law No. 2000-89.

ADVERTISING As a short-term rental operator, you are to only advertise the operation with a valid license and post a paper copy of your license in the operation. Allow only one confirmed reservation at a time and upon advertising, state the number of parking spaces that are available to guests, representing the maximum number of vehicles permitted by paying guests.

INSURANCE It is recommended that operators and/or owners of short-term rentals disclose their operation to their respective insurance provider, in addition to ensuring that their policy is updated to include damage and/or liability insurance for the operation.

NOISE AND NUISANCE Under By-Law No. 30-09, no owner shall emit, cause or permit the emission from the owner's property of unreasonable noise or noise that is likely to disturb the inhabitants of the Town of Fort Erie. In this respect, it is important that you educate your guests about noise and nuisance regulations which include:

- Not making, causing or permitting an unreasonable noise or noise that is likely to disturb an inhabitant of the Town of Fort Erie, such as noise caused by bells, horns, sirens, radio, television, and other electronic devices, yelling, shouting, swearing, and persistently by domestic pets and;
- Not attracting and/or feeding animals domesticated or otherwise in such a way that it causes damage or otherwise creates a nuisance or disturbance to another person or another person's property.

GARBAGE AND RECYCLABLES COLLECTION As a short-term rental operator, it is your duty to inform your guests of the rental's garbage and recyclables collection date and timing, as scheduled by the Niagara Region. Guests should be educated about collectible materials and the nature of their disposal. Please reference Niagara Region's Waste Management By-Law No. 2017-56.

TENT USE Operators of short-term rentals are to inform their guests that no outside sleeping accommodation is permitted on the short-term rental property.

NOTE: Failure to comply with the provided information and by-laws could result in fines or the revocation of your license. A "Short-term Rental Guest Rules" document has been provided on page 6 for use and reference.
