

IMPORTANT NOTICE TO RESIDENTS

RE: - Temporary Disruption to Sanitary Sewer Service on Wintemute Street

Dear Resident:

PipeFlo Contracting Corp is under contract with the Town of Fort Erie to restore a section of the sanitary sewer in front of your residence/business for maintenance purposes. As part of the restoration process, **your sanitary service connection will be blocked temporarily on, December 2018 between the hours of 8:00 am to 8:00 pm.** We will work diligently to minimize your service disruption. If the work is completed prior to 8:00 pm, you will be advised accordingly.

The sewer restoration is completed by installing a liner in the existing sewer pipe through the existing manholes in the road. This method of sewer rehabilitation will restore the sewer pipe with minimal disruption to the neighborhood compared to conventional open trench repairs.

Work equipment will remain on your street until all of the lining activities are complete, which could under certain circumstances extend into the late evening. If evening work is required, every effort will be made to minimize noise levels.

While the work is being performed, your sewer service connection will be temporarily sealed off. In order to avoid backup of sewer water into your residence or business we ask that you take all of the following precautions to prevent water from escaping through any drain during the specified time period:

- 1. Do not wash clothes or dishes**
- 2. Do not take showers or baths**
- 3. Do not flush toilets (unless absolutely necessary)**
- 4. Do not operate sump pumps which are connected to the sewer**

If any problem occurs with your sewer service during this rehabilitation process, please either visit one of our on-site representatives or after hours contact (905) 981-9025.

PipeFlo Contracting Corp Operations Coordinator, **Braydon McNeill, 905-981-7465, braydon@pipeflo.ca**

If you have any questions regarding this work you can contact the Town of Fort Erie Project Manager, Robert D. Judd, P.Eng., Municipal Engineer - Infrastructure Renewal, Engineering Division, 905-871-1600, ext. 2412, email rjudd@forterie.ca,

Thank you in advance for your tolerance and understanding during this period of disruption.

Yours truly,
PIPEFLO CONTRACTING CORP.
