

Got a Sewer Smell?

Attention: Homeowner

During the course of reconstruction of the sanitary sewers on your road, we discovered that your property had a sewer trap. It is the Town of Fort Erie's policy to remove these traps for the following reasons:

1. They are prone to periodic plugging
2. They prevent the entire sanitary sewer from being cleaned or snaked
3. The traps are inaccessible
4. The traps do not comply with present day plumbing codes

We recommend that property owners who had sewer traps conduct a review of the plumbing in their house or building to determine if all fixtures have traps and that there are no opened drains or sewers. This review may be done with the assistance of a local plumbing contractor, if necessary.

If you require any further explanation, or assistance in this matter, please do not hesitate to call the Building Department at

905-871-1600 Ext. 2519
