

Scheduled Water Supply Disruption

August 25, 2017

Due to the construction activities underway as a portion of the Highland Street Project – There is a requirement to disrupt water supply for watermain works.

This watermain connection work is scheduled for:

**Tuesday August 29, 2017
Between 8:30 AM & 4:30 PM**

Once these works are completed we ask that you run your taps for a few minutes to flush your service lateral. There may be brief periods of discoloured water or air in the line. If any of these issues persist please contact our office immediately at 905-871-1600 ext. 2466.

We thank you for your patience during this brief period of service disruption.

Any questions or concerns can be forwarded to:
